

Response for the Pre-Bid Queries

Project Title: Engaging Consultant for carrying out Feasibility Study, Detailed Project Report and Project Management services for establishing a common STP cum ETP at Life Sciences Park, Thonnakkal, Thiruvananthapuram.

Tender ID – 2021_KSIDC_448810_1

Sl.No.	Page No./Cl.No.	Clause as per RFP	Queries	Response from KSIDC
1			Please clarify the capacity of the STP and ETP to be made under this contract, as it would help us determine the project cost, based on which we can quote a % for the consultancy fees.	The exact capacity of the proposed STP and ETP can be finalized only after completing the feasibility study as Life Sciences Park project is in initial stages. The various companies are in the process of setting up of manufacturing facilities. Therefore, we request you to quote the fee as % of estimated cost in e-tender portal even though the BoQ shows item rate
2			Kindly clarify the inlet and anticipated outlet parameters of STP and ETP as that would determine the possible technology selection.	As the Life Science Park is in its developing stage it is not possible to provide the inlet parameters details as many of the MNC based in Bio-Technology are taking the initiative to set up their units within LSP. Consultancy can opt for the Inlet parameters same as that of the unit working under this sector. Regarding outlet parameters, it should match with the standards and norms specified by the Kerala pollution control board. However, we should be in a position to recycle the entire water discharge from STP/ETP for flushing & watering plants.
3			We request you to kindly consider an absolute value as a bid variable rather than % of project cost. It will have a better clarity and no conflict of interest for KSIDC.	The rough cost estimate can be worked out only after feasibility study is completed and therefore, the bid shall be submitted as % of estimated cost as the scope of services also included PMC services during implementation.

P.M

4	Clause 7.0, Clause 7.1 (ii) Page no 15	Conditions of Eligibility of Bidder The bidder should have experience in undertaking feasibility study OR preparation of Detailed Project Report of ETP with a minimum capacity of 30 KLD in the last 5 years ending on 31.03.2021.	<ul style="list-style-type: none"> •Kindly consider STP Projects as well. •Kindly Consider Projects in last 10 (Ten) Years under this Criteria.
